PROFILE

Full-Stack Developer and Computer Science & Engineering graduate with hands-on experience building web applications across frontend, backend, databases, and UI/UX. Experienced with Next.js, React, TypeScript, Python, Django, REST APIs, and PostgreSQL, with additional professional experience in AI training and software-engineering evaluation. Built and contributed to full-stack applications through internships, academic projects, and independent development, with a strong focus on responsive interfaces, API integration, and maintainable software.

PROFESSIONAL EXPERIENCE

ttm, *App Tester* 09/2026 – Present | Remote

- Testing a mobile application across core features and user flows, identifying bugs and usability issues.
- Reporting issues and providing structured feedback to support pre-release quality assurance.

AfterQuery, *Software Engineering AI Trainer* 03/2026 – 09/2026 | Remote

- Worked on full-stack software-engineering tasks as part of AI training and evaluation projects, reviewing implementations for correctness, functionality, and adherence to requirements.
- Reviewed around 200 tasks for Project Julio, analyzing software implementations, identifying technical issues, and evaluating solution quality.
- Contributed as an expert on Projects Blueprint, Rewrite, and Aid, creating and reviewing software-engineering tasks and assessing AI-generated code.

Buna Labs Company, *Front-End / Full-Stack Development Intern* 06/2025 – 08/2025 | Addis Ababa, Ethiopia

- Designed UI/UX and developed the frontend of a polling/voting application using Next.js and TypeScript.
- Built an end-to-end appointment booking system as a full-stack contributor, working across the frontend, backend, and PostgreSQL database.
- Collaborated with the development team using Git and GitHub to implement and refine application features.

Omricom Software Technologies, *Software Development Intern* 06/2024 – 08/2024 | Addis Ababa, Ethiopia

- Developed and designed web applications using HTML, CSS, JavaScript, React, Django, and Python, with a focus on responsive frontend interfaces.
- Built interactive web experiences including authentication/login interfaces and other web applications while collaborating with fellow interns.
- Supported teammates with PHP development tasks and contributed to project delivery alongside other internship responsibilities.

SKILLS

Languages: TypeScript, JavaScript, Python, SQL, C++, C, Dart
Frontend: Next.js, React, Tailwind CSS, HTML5, CSS3, Responsive Web Design
Backend & APIs: Django, Django REST Framework, FastAPI, RESTful APIs
Tools: Git, GitHub, Docker, Linux, Figma, VS Code
Databases: PostgreSQL, MongoDB, MySQL, SQLite
Development: Full-Stack Development, UI/UX Design, API Integration, Database Design, Software Testing, AI Model Evaluation

PROJECTS

Pharmacy Clinic System 08/2025 – 07/2026

Engineered a full-stack pharmacy and clinic management system for patient records, medicine inventory, appointments, prescriptions, and billing, with authentication, user roles, and dashboard analytics. Built with Next.js, TypeScript, PostgreSQL, Drizzle ORM, and Better Auth.

Appointment Booking System 06/2025 – 08/2025

Built an end-to-end appointment booking platform during a software engineering internship, contributing across the frontend, backend APIs, and database. Developed responsive interfaces and scheduling workflows using Next.js, TypeScript, REST APIs, and PostgreSQL.

InkLink , *Creative Platform for Readers and Writers in Ethiopia* 11/2025 – 03/2026
Graduation project for an Ethiopian social reading and writing platform. Designed UI/UX and developed the Next.js/TypeScript frontend, contributing to backend integration and features including collaborative writing, social interactions, premium content, and AI-assisted moderation.

EthioScore , *The Ethiopian Premier League web project* 08/2026 – Present
Built an Amharic-first Ethiopian Premier League web app with sourced standings, fixture references, club pages, and report content using a verified snapshot model. Developed with Next.js, React, TypeScript, and Tailwind CSS, with an emphasis on source transparency and localized UX.

OmniOptimize 11/2025 – 01/2026
Contributed to UI/UX design and frontend development, reviewing and refining user interfaces and supporting teammates in implementing frontend components and responsive layouts.

EDUCATION

B.Sc. Computer Science and Engineering | Cgpa: 3.59/4.00, 09/2022 – 06/2026 | Adama , Ethiopia
Adama Science and Technology University
Exit Examination Score: **79/100**

College Preparatory Diploma, *Neway Challenge Academy* 09/2017 – 11/2021

CERTIFICATES

STEM e-Learning Certificate University of Padua
STEM e-Learning Program

LANGUAGES

- Amharic - Native
- English - Fluent
